lip & brow & chin **68**
sides **29**

FACE

LED Facial Treatment

A non invasive antiaging treatment clinically proven to boost collagen, reduce fine lines & increase oxygen in the skin. Can also reduce acne, inflammation and redness. (associated with rosacea, eczema & psoriasis)

89

May be added on to almost any face treatment to boost and intensify results.

Micro needling

Also known as Collagen Induction Therapy (CIT), is a non-surgical treatment that uses a device with fine needles to create controlled micro-injuries to the skin. This stimulates production of collagen & elastin. Assisting in improving fine lines, wrinkles, acne scars & stretch marks. Normally a series of treatments 4 weeks apart for optimal rejuvenation & a firmer, smoother complexion.

279

Luxe Lift Facial

Instantly firm and tighten your skin. Dramatically increase skin elasticity & reduce appearance of wrinkles & fine lines. An anti aging treatment that uses enzymes and peptides to deliver both immediate & long term results leaving skin glowing & revitalised.

185

Oxygen Rx Facial

Revitalise your skin with this luxurious treatment. Infuses pure oxygen & essential nutrients in to the skin promoting healing & boosting collagen production. It detoxifies, hydrates & soothes leaving your complexion rejuvenated & radiant.

165

FACE

Deep Sea Peel

A potent non -acid peel that uses sea herbs and plant extracts to help generate collagen and stimulate deeper changes in the skin. Effective at treating melasma/hyperpigmentation, acne, mild scaring, fine lines, wrinkles and helps to improve skin circulation. The use of Coral and Seaweed to stimulate immense activity and renewal within the skin. Improving blood flow, oxygen and nutrient supply to the skin, assisting renewal.

249

Dermafrac

Micro needling infusion therapy is an advanced aesthetics treatment used to target many skin concerns including fine lines & wrinkles, sun damage, pigmentation, open pores, congestion, acne scarring & dehydration. This unique treatment is a 4 in one – microdermabrasion, skin needling, infusion and LED which delivers immediate results. This advanced treatment will stimulate collagen production and cell renewal, helping to plump, firm and smooth the skin. As the roller creates microchannels in the skin it allows a deeper penetration of a potent serum into areas of concern. LED light therapy promotes collagen stimulation, suppresses inflammation, reduces irritation.

199

Epidermal Blading

A safe, painless and highly effective clinical treatment designed to evenly and deeply exfoliate the build up of dead skin cells and remove the “peach fuzz” and fine hair unable to be treated with laser. Improves texture and complexion of skin, leaving it super smooth and radiant.
